## Summary

As an Assessor of Competency at LSP Pariwisata Global Indonesia, I apply my technical and interpersonal skills to evaluate the competence of professionals in the tourism industry. I have an Associate Degree in Informatics Engineering from State Polytechnic of Batam, and I also completed two short courses in Food Preparation and Food Service from Universitas Triatma Mulya and Akademi Komunitas Manajemen Perhotelan Indonesia (AKOMAPINDO) Bali, which gave me a comprehensive understanding of the hospitality sector. In addition to my role as an assessor, I also work as an Assistant Manager of Administration and Administrator, and as an Information Technology Staff at LSP Pariwisata Global Indonesia, where I manage the website, the accounts, and the database of the organization. I have been working at LSP Pariwisata Global Indonesia for over a year, and I enjoy collaborating with my colleagues and partners to support the development and recognition of the tourism industry in Indonesia and beyond. My core competencies include Help Desk Support, Technical Support, Food Service, Food Product, Bartender and Barista, Network Technician, and Training Methodology. I am passionate about learning new skills and technologies, and I am always looking for opportunities to improve my performance and contribute to the mission and vision of LSP Pariwisata Global Indonesia.
