EXECUTIVE SUMMARY

Emil Bambang Sumirat holds 30 years of Financial Services BFSI industry knowledge as well an experienced Senior Project Director for both large private and government related mission critical projects. He is responsible to ensure overall projects are on-time, on-budget, project goals were achieved and part of an Executive Project Committee for all projects in Indonesia to manage key project stakeholder communications and project output expectations. On a personal level, he is a scuba diver enthusiast, a micro-business private investor as well an amateur underwater photographer.

Previously, Emil was the Indonesia Country Director for FIS Global (www.fisglobal.com) since early January 2011 until August 2023. He is responsible to grow the Capital Market businesses in Indonesia as well managing FIS Indonesia local team resources. Mr. Sumirat previously was a Senior Software Engineer at IBM (www.ibm.com), where he began his IT career in 1991 as part of the Banking, Finance, Securities, and Insurance (BFSI) team at IBM Indonesia. His responsibilities at IBM Indonesia encompass managing and implementing SWIFT International Payments across 20 largest Indonesian Banks.

Since 2003 until 2008, Emil Bambang Sumirat was actively involved in LEAD - Leadership for Environment and Development (www.lead.org) a non-governmental organization based in London – UK as a LEAD Fellow. Mr. Sumirat was involved in the dissemination of Sustainable Development amongst corporations. Emil Bambang Sumirat is a Presencing Institute Fellow (www.presencing.com) and IDEAS MIT Fellow that promotes Theory U for innovation from The Sloan School of Management MIT (Massachusetts Institute of Technology) – USA for the past several years in Indonesia.

Mr. Sumirat received an MBA degree in Finance from The Management School, Imperial College - London UK, and a British Chevening Awards scholar. An MIT Sloan School of Management – IDEAS (Innovation Dynamic Education and Action for Sustainability) non-degree Executive Program graduate. And as well, he receives his undergraduate degree in Mechanical Engineering from The University of Indonesia.
