SUMMARY

Academician with the major on neuroscience that sophisticated in research, innovation, and teaching. In the last nine years career in Indonesia and Brunei Darussalam has been successfully developing clinical neuroscience, neural engineering, and neuro-management/marketing.

WORK EXPERIENCE

Faculty

Institute for Leadership, Innovation and Advancement - Universiti Brunei Darussalam

August 2023 - Present

- At ILIA UBD, I have been fortunate to blend neuroscience with diverse fields such as leadership, marketing, education, and any other fields. I designed and taught courses that explore how the brain shapes human decision-making in sustainable development. One of the most meaningful experiences has been leading executive training in neuroleadership for mid- to senior-level managers in Brunei, where we explored how brain-based strategies can improve team motivation, resilience, and clarity. I also contributed to programme innovation aligned with Wawasan Brunei 2035, helping bridge research and practice to support national goals in education, leadership, and talent development. The collaborative spirit at UBD has allowed me to bring applied neuroscience to new audiences in a way that is both rigorous and practical.

Associate Professor and Director

Neuroscience Institute - Universitas Prima Indonesia

September 2022 - Present

- This role has been a homecoming, offering a space to fully develop my vision for applied neuroscience in Indonesia. As Director of the Neuroscience Institute, I focus on translating brain science into tools for leadership, education, and behavioral innovation. Together with an enthusiastic team, I have designed interdisciplinary curricula, supervised collaborative research on eye tracking and digital behavior, and supported students in publishing across local and international journals. I have also led several grant-funded projects exploring how cognitive neuroscience can inform innovation in education and marketing. Beyond academia, I enjoy building connections with community leaders and educators, offering neuroleadership workshops that help people understand themselves and others more deeply. The work continues to remind me that neuroscience can touch lives far beyond the lab.

Assistant Professor and Director

Neuroscience Center - Universitas Muhammadiyah Prof Dr HAMKA

June 2015 - May 2022

- My journey at UHAMKA was one of building from the ground up. I helped establish Indonesia's first Neuroscience Center focused on real world applications by integrating clinical neuroscience, behavioral research, and organizational development. We created a space where medical students, psychologists, educators, and engineers could work together. One of my proudest achievements was mentoring students in projects that applied neuroscience to leadership and health communication. Many of their works gained national recognition. I also led the development of Brain ECVT, a novel brain imaging technology, and explored how it could be used in mental health, addiction research, and cognitive training. The work was both academic and entrepreneurial, as we built consultancy and training models that brought knowledge to institutions, leaders, and communities throughout Indonesia.

EDUCATION

Ph.D in Neurosurgery
Department of Neurosurgery - Jichi Medical University

- Dissertation on Epilepsy Surgery

April 2010 - March 2015

CURRENT RESEARCH AREA / INTEREST

Leadership:

(1)Neuroleadership; (2)Leadership for Student's Organization; (3)Cross Culture Leadership

Marketing:

(1)Neuromarketing;

CURRENT TEACHING AREA / INTEREST

Applied Cognitive Neuroscience:

(1)Neuroleadership; (2)Neuromarketing; (3)Educational Neuroscience

TEACHING HISTORY

Universiti Brunei Darussalam:

(1)Business Information Systems; (2)Geographies of Media, Communication, and Popular Culture; (3)Mental Health Nursing in Health Care; (4) Psychology in Education; (5) Ecotourism; (6) Youth Geographies; (7) Marketing Management; (8) Executive Development Program for Middle Management Officers; (9) Graduate Diploma in Sustainable Development

Universitas Prima Indonesia:

(1)Neuropsychology; (2) Public Health

Universitas Muhammadiyah Prof Dr HAMKA:

(1)Brain Anatomy and Histology; (2) Neuropsychology; (3) Public Health

ADDITIONAL INFORMATION

Languages:

(1)Indonesia; (2)English; (3)Japanese

Awards:

(1)Best Presentation on World of Addiction, 2018; (2)Best Presentation on Annual Academic Meeting on Psychiatry, Addiction, and Neuroscience, 2016

Research Grant:

(1)Higher Education, Research, and Technology Grant - Ministry of Education Indonesia, 2024; (2)Industrial Technology Development Program Grant - Ministry of Research and Technology Indonesia, 2019 - 2021; (3)National Innovation Grant - Ministry of Research and Technology Indonesia, 2019 - 2021; (4)Leadership Program Grant - Bank of Indonesia, 2017.
