4 Years of successful experience for managing safety engineering design engineer in operation and project with various activities such as:

- | | |
|--|--|
| <ul style="list-style-type: none">• Engineer in Charge for Bekapai 2B project (end of final stage)• Engineer in Charge for Offshore Minimalist Platform project• Engineer in Charge for POD Tambora 5 project• Engineer in Charge for Handil Ph 5 Project• Engineer in Charge for pilot Tunu minimalist concept project• Engineer in charge for MRS Fire Fighting improvement for Senipah Tank Farm | <ul style="list-style-type: none">• Engineer in Charge for various EAR from Production Operations• Engineer in Charge for various studies for DWI activities (SIMOPS Shallow Gas, Sub-sea release, etc.)• Engineer In Charge for derogation non provision of ESDV in Handil using Technological Risk Assessment approach• Act as Safety Engineering Design engineer leader (during vacant period, for around 6 months)• HAZOP Leader for various well connection studies |
|--|--|

A year experience for managing Process Safety in operation and project with various activities such as:

- Leader in Safety Review of any modification or studies. Leader in various HAZOP, HAZID
- Review in some derogation dossiers (BKP AL, AOI, DWI, etc.)
- Review some Risk Evaluation Tool (RET) for Derogation, LALL, DGS, etc.
- Review in TRA Revalidation Document
- Review some project Documents (Drop Object Study, Ship Collision, DRA, etc.)
- Participate in some project audits (SPOT#2 PTR#2 BKP AL, SPOT#2 PTR#2 AOI Project)

Employment History

Apr 2023 - Now	Pertamina Hulu Mahakam Sr. Engineer Production Operations	Sr. Engineer Production Operations Supreme Pilot P05	Main Job - Occupational Safety - Process Safety
-----------------------	--	---	--

Specific Roles:

- ✓ Coordinate and control the jobs related to safety matters in order to respect the HSSE policies and procedures in Production division
- ✓ Act as Auditor for Contractor safety management System (CSMS) in Production Division
- ✓ Continue to reinforce Contractor Safety Management System within PO. Perform audit / inspection/upskilling/training in accordance to guideline.
- ✓ Act as PO vocal points and coordinator for various HSSE Audits (SUPREME, ISO-14001, etc.) and ensure adequate preparation
- ✓ Establish pilot for One SIKA implementation in one of PHM site and facilitate adequate evaluation on the effectiveness/points to be improved
- ✓ Ensure adequacy of Emergency Response equipment and tool. Monitor the maintenance of major HSE equipment.
- ✓ Assist HSSE to reinforce efficient program - propose Learning from Event program from past incidents as reminder and reflections.
- ✓ Develop PO & sites HSSE Objective 2024 and ensure regular monitoring in Level 3 & Level 2 meeting
- ✓ Support HSSE sites, collaboration and discussion all matters in regards to Safety Operations in Production
- ✓ Participate in CTA Review, HIPO Meeting, Incident investigation, etc.
- ✓ Participate in some interface project (SIMOPS dossier/safety review)
- ✓ Lead in some Risk Assessment for Lifting Above Life Line, Derogation, Downgraded Situations, etc. (including process safety risk assessment).
- ✓ Prepare and monitor budget HSSE Knowledge & Improvement (in Production division)
- ✓ Task force: SUPREME Pilot P05

Apr 2021 - Now	Pertamina Hulu Mahakam HSSE- Safety Operations	Analyst Occupational Safety Supreme Pilot Leader P01	Main Job - Occupational Safety - Process Safety
-----------------------	---	---	--

Specific Roles:

- ✓ Coordinate and control the jobs related to safety matters in order to respect the HSE policies and procedures in operation
- ✓ As an Auditor for CSMS cycle
- ✓ Prepare any report to authorities (Monthly safety inspection, Rig Safety Inspection)
- ✓ Prepare any report to Region 3 and SHU (Unsafe Act Unsafe Situation, HFIF)
- ✓ Assess and review CERIA (CeRMAT Initiative Award) quarterly
- ✓ Assess and review annual Safety Award (Local Heroes, Best Initiative program, etc.)
- ✓ Perform (PDCA cycle) Safety Campaign (CLSR, TEMAN, PIP, HFIF) including but not limited to prepare the campaign material (video, poster, banner), monitoring and evaluate the safety program
- ✓ Project Leader for Bulan K3 Event
- ✓ Technical Reviewer for any Safety Equipment procurement
- ✓ Support HSSE sites/entities, collaboration and discussion all matters in regards to Safety Operations (PO, PRJ, DWI, SDP, BBO, etc.)
- ✓ Participate in CTA Review, HIPO Meeting, Incident investigation, etc.
- ✓ Participate in some interface project (such as but not limited to bridging document)
- ✓ Lead in some Risk Assessment for Lifting Above Life Line, Derogation, Downgraded Situations, etc.
- ✓ Plan & Monitor for Radioactive Issue in PHM (MPFM & TeNORM), including budget management
- ✓ Prepare and monitor budget HSSE Knowledge & Improvement (including Safety Culture Initiative)
- ✓ Lead Safety Review, HAZOP, HAZOP, HAZID to support Operation, Project, DWI, etc.
- ✓ Participate in Project Audit (SPOT/PTR, PRR)
- ✓ Review Project document (HSSE document)
- ✓ Assist Safety aspect for BBO operational
- ✓ Prepare upskilling program through several webinar, training in regards to Safety topic
- ✓ Perform safety induction (based on request)
- ✓ Assist Region 3 in some campaign program (Just Culture program, Bulan K3 regional, HFIF/TEMAN/CLSR campaign program)

- ✓ Task force: SUPREME Pilot Leader P01

Jul 2019 – Mar 2021	Pertamina Hulu Mahakam HSE – Safety Operation	Safety Engineer II	Main Job - Occupational Safety
----------------------------	--	---------------------------	---

Specific Roles:

- ✓ Coordinate and control the jobs related to safety matters in order to respect the HSE policies and procedures in operation
- ✓ Prepare any report to authorities (Monthly safety inspection, Rig Safety Inspection)
- ✓ Assess and review CERIA (CeRMAT Initiative Award) quarterly
- ✓ Assess and review annual Safety Award (Local Heroes, Best Initiative program, etc.)
- ✓ Perform (PDCA cycle) Safety Campaign (CLSR, TEMAN, PIP, HFIF) including but not limited to prepare the campaign material (video, poster, banner), monitoring and evaluate the safety program
- ✓ Project Leader for Bulan K3 Event
- ✓ Technical Reviewer for any Safety Equipment procurement
- ✓ Support HSSE sites/entities, collaboration and discussion all matters in regards to Safety Operations (PO, PRJ, DWI, SDP, BBO, etc.)
- ✓ Participate in CTA Review, HIPO Meeting, Incident investigation, etc.
- ✓ Participate in some interface project (such as but not limited to bridging document)
- ✓ Lead in some Risk Assessment for Lifting Above Life Line, Downgraded Situations, etc.
- ✓ Prepare upskilling program through several webinar, training in regards to Safety topic
- ✓ Perform safety induction (based on request)

Jan 2018 – Jun 2019	Pertamina Hulu Mahakam ECP – Process Studies Safety Engineering Design	Safety Engineering Design Engineer II	Assist Lead Engineer Safety Engineering Design in organizing and conducting conceptual safety engineering studies
----------------------------	---	--	---

Specific Roles:

- ✓ Conduct the jobs in compliance with Company's HSE Principles, Procedures, Standing Instruction, International Standards & Recommendations, etc.
- ✓ Organize and conduct safety engineering studies during Conceptual and/or Pre-Project Phase in order to provide safety engineering design/studies/concept.
- ✓ Provide safety engineering expertise during Basic Engineering and/or Detailed Engineering Phase to ensure the basic-detailed engineering results in accordance with safety studies/concept.
- ✓ Provide safety engineering expertise for other entities (e.g.: FO, DP, etc.) to support their requirements for engineering/technical assistance related safety.
- ✓ Deliver the jobs to meet optimum and best quality of results.
- ✓ Act as Safety Engineering Design Engineer during its vacancy.
- ✓ Engineer in Charge for Offshore Minimalist Platform project
- ✓ Engineer in Charge for POD Tambora 5 project
- ✓ Engineer in Charge for Handil Ph 5 Project
- ✓ Engineer in Charge for pilot Tunu minimalist concept project
- ✓ Engineer in Charge for various EAR from Production Operations
- ✓ Engineer in Charge for various studies for DWI activities (SIMOPS Shallow Gas, Sub-sea release, etc.)
- ✓ Engineer In charge for derogation non provision of ESDV in Handil using Technological Risk Assessment approach
- ✓ Act as Safety Engineering Design engineer leader (during vacant period, for around 6 months)
- ✓ HAZOP Leader for various well connection studies

Apr 2015 – Des 2017	Total E&P Indonesia ECP – Process Studies Safety Engineering Design	Safety Engineering Design Engineer II	Assist Lead Engineer Safety Engineering Design in organizing and conducting conceptual safety engineering studies
----------------------------	--	--	---

Specific Roles:

- ✓ Conduct the jobs in compliance with Company's HSE Principles, Procedures, Standing Instruction, International Standards & Recommendations, etc.
- ✓ Organize and conduct safety engineering studies during Conceptual and/or Pre-Project Phase in order to provide safety engineering design/studies/concept.
- ✓ Provide safety engineering expertise during Basic Engineering and/or Detailed Engineering Phase to ensure the basic-detailed engineering results in accordance with safety studies/concept.
- ✓ Provide safety engineering expertise for other entities (e.g.: FO, DP, etc.) to support their requirements for engineering/technical assistance related safety.
- ✓ Deliver the jobs to meet optimum and best quality of results.
- ✓ Engineer in Charge for Bekapai 2B project (end of final stage)
- ✓ Engineer in charge for MRS Fire Fighting improvement for Senipah Tank Farm
- ✓ Engineer in Charge for various EAR from Production Operations
- ✓ Engineer in Charge for various studies for DWI activities

Mar 2014 – Mar 2015	Total E&P Indonesia HSE – Safety Operation	Safety Engineer I	Main Job - Occupational Safety
----------------------------	---	--------------------------	---

Specific Roles:

- ✓ Coordinate and control the jobs related to safety matters in order to respect the HSE policies and procedures in operation
- ✓ Prepare any report to authorities (Monthly safety inspection, Rig Safety Inspection)
- ✓ Perform Safety Campaign including but not limited to prepare the campaign material (video, poster, banner), monitoring and evaluate the safety program
- ✓ Committee for Bulan K3 Event
- ✓ Technical Reviewer for any Safety Equipment procurement
- ✓ Support HSSE sites/entities, collaboration and discussion all matters in regards to Safety Operations (PO, PRJ, DWI, SDP, BBO, etc.)
- ✓ Participate in CTA Review, HIPO Meeting, Incident investigation, etc.
- ✓ Participate in some interface project (such as but not limited to bridging document)
- ✓ Perform safety induction (based on request)
- ✓ Act as Safety authority in BBO Area
 - Establish Permit to Work in BBO, develop SSI
 - Set Up performing Authority and Operating Authority
 - Establish Job Risk Assessment System in BBO
 - Supervise and monitoring safe work practice in any activities in BBO area
 - Conduct any training, audit, inspection in BBO area

Mei 2010 – Feb 2014	Total E&P Indonesia SPS/S&E	Safety Supervisor Safety Authority for Peciko 7B Project	Main Job - Occupational Safety - Emergency Preparedness
----------------------------	--	---	--

Specific Roles:

- ✓ Coordinate and control the jobs related to safety matters in order to respect the HSE policies and procedures
- ✓ Conduct the risk identification to prevent any safety impact during the operations on SPS custodianship area
- ✓ Control the readiness and condition of system and equipment to ensure the preparedness and deployment of Emergency Intervention Team
- ✓ Perform good reporting related with safety matter to provide proper and auditable business process for SPS/S&E operation
- ✓ 20 11 – As Safety Authority in Peciko 7B Project (MWP C & SWP G)
 - Responsible for acknowledgement permit to work
 - Review all job risk assessment for construction activities

- Review contractor HSE procedures
- Inspect any marine fleet (fifi boat), fire pump, tools
- Supervise and monitor any project activities in accordance to HSSE procedure & regulations
- Workplace HSE Inspection & Audit (barge & platform)
- Prepare and deliver HSE training, induction, awareness to project personnel
- Review HSE reporting and statistic within project
