

CURRICULUM VITAE

CATUR SUHENDRO S.S.T

OIL & GAS PRODUCTION SUPERVISOR

EDUCATION

2007 – 2011 **PTK AKAMIGAS STEM, Cepu**
Diploma Degree (D4) in Exploration & Petroleum Production
Cumulative GPA : 3.48

2003 – 2006 **SMU I LOAKULU** Senior High School, Kutai Kartanegara

PROFESSIONAL EXPERIENCE

- 2012 – 2020** **PT. Pertamina Hulu Energi Offshore North West Java (as Third Party Contact)**
(2012 – 2015 PT. Bawana Margatama)
(2015 – 2017 PT. Supraco Indonesia)
(2017 – present PT. Inconis Nusa Jaya)
Position : Production Operator (Plant & Production Well)
- Operate production facilities in safe manner and following approved operating procedures and work practices within operating envelope, maximized reliability and maintaining integrity.
 - Start-up & shutdown Process rotating equipment e.g. Turbine Compressor & Oil Pump.
 - Monitoring and controlling of Plant process equipments (e.g. Turbine compressor, Production Separator, Slug catcher, air compressor etc.) and Report immediately to Control Room Operator/Lead Operator any abnormality and unsafe condition observed during conducting the rounds.
 - Periodically take and record all required process parameter (pressure/temperature on Production separator, Gas plant for gas lift & sales, Crude pump etc.) Into the record sheet and keep file orderly. Discuss with Lead Operator/Supervisor any issues and discrepancy found during the rounds.
 - Start up and shut down Gas Compressor unit.
 - Monitoring and controlling of utility equipments operation (e.g. utility air compressor, generators, water maker, fire pump etc.)
 - Troubleshooting process process upset.
 - Start up and shut down Normally Unmanned Installation (NUI) platform.
 - Troubleshoot well problems (insufficient gas lift, liquid hold up, flow line scale up etc.) and discuss to petroleum engineer for solving program.
 - Monthly Well testing activity.
 - Wellhead & Tubing integrity test.
 - Maintenance Instrument equipments of processing NUI (repair/calibrate PIC, LIC etc.).
 - Replace and Install Equipment in NUI e.g. Control Valve, Block Valve, Flow control valve etc.
 - Support and preparation RIG / Lift Boat move in NUI platform.
 - Operating, troubleshooting NUI process upset.
 - Taking BS&W sampling from wells fluid.
 - Operate SCADA pack for optimize G/L Well injection.
 - Conduct to pigging activity to gas/oil line : Launching & Receiving
 - Support Petroleum Engineering for Well work candidate and running Echometer for taking subsurface data.
 - Support Process Engineer for updating/revision P&ID.
 - Ensure availability of chemical in Plant & NUI and repair chemical pump if broken.
 - Support Contractor Company to working in Process area.
 - Reporting daily production with ORACLE application.
 - Emergency Response Team member.
 - Keep record and maintain all applicable of documentations (e.g. Daily Productions Report, ISO 14001, OHSAS 18001, ISRS 8, etc.).
 - Lead daily safety meeting in Workplace.
 - Stop, intervene, and approach others when unsafe act/manner observed.
 - Conduct to safety system of work (SSOW) and Good Housekeeping in Workplace.

Jl. MT. Haryono No. 54, RT 06. Loa Kulu Kota, Kutai Kartanegara, Kalimantan Timur

ADDRESS 2

Perum Griya Tambakwatu Indah Kav.2 RT.05 RW.02 Karangboyo , Cepu

HANDPHONE

085250369761
08112650272

E-MAIL

catur_suhendro@yahoo.com
catursuhendro88@gmail.com

DATE & PLACE OF BIRTH

Loa Kulu. October 18, 1988

NATIONALITY

Indonesia

RELIGION

Islam

MARITAL STATUS

Married

LANGUAGE

Indonesia : Native language
English : Good

SKILLS

Basic Oil & Gas Industry
Well Head Operation
Basic Pneumatic Instrumentation
Basic SCADA
Strong Safety Behavior
Proficiency in English, verbal and written.
Good Communication

COMPUTER SKILLS

Microsoft Office
(Word,Excel,Powerpoint)
Pipesim
Visual Basic
Oracle User
Matlab

INTEREST

Jogging
Bicycling
Table Tennis
Tennis Court
Creative woodworking

2020 – present PT. Pertamina EP Cepu Jambaran Tiung Biru

- Involved for Development of Operation Procedure Gas Project Jambaran Tiung Biru (JTB)
- Involved for Development of Organization Procedure Pre Production Operation JTB
- Lead Offsite Area of Precommissioning & Commissioning Activity in Gas Project Jambaran Tiung Biru
- Lead of Operation Apprentice Program for Area 1 Process (Wellhead, Gas Separation, Condensate Stabilization, Dew Point Control Unit, Acid Gas Removal Unit & Storage system).
- Building organization team work of Pre Production Operation JTB

INTERNSHIP

- 2011** PT. MEDCO E&P Indonesia, Kaji, South Sumatera.
Design and Installation artificial lift Electric Submersible Pump for oil well.
- 2010** PT. CNOOC SES Ltd. Jakarta.
Gas Dehydration processing using Amine Sweetening system.
- 2009** PT. TOTAL E&P Indonesia, Samboja, East Kalimantan.
Crude oil separation and gas compressor system, liquid loading process and offshore facilities, Gas Dehydration processes using Refrigerant system.
- 2008** PT. VICO Indonesia, Badak, East Kalimantan.
Gas Dehydration processing using Glycol contactor.

ORGANIZATION EXPERIENCE

- 2013 – 2017** OHSAS Coordinator in BRAVO Flowstation.
Secretary of Panitia Pelaksana Keselamatan, Keamanan dan Kesehatan (K3) BRAVO Flowstation.
- 2009 – 2010** Humanity Section Head in Badan Eksekutif Mahasiswa (BEM) PTK-AKAMIGAS STEM.

PROFESSIONAL TRAINING & CERTIFICATE

- 2022** Training for Trainer SIKA. Surabaya
Pertamina Region 4
- PT. Pertamina EP Cepu. Jakarta
Area Authority (AA)
- Penanggulangan Tumpahan Minyak. Surabaya
OSCT
- 2021** HAZOP. Jakarta
PTC
- Working At Height. Jakarta
PTC
- Advance Gas Test. Cepu
Pusdiklat Migas
- 2015** PERTAMINA HULU ENERGI. Jakarta
Continuous Improvement Program (CIP)
- KEMENAKERTRANS. Jakarta
Advance First Aid.
- 2013** OSCT. Jakarta
IMO Level 1 Oil Spill Response Team.

PROJECT EXPERIENCE

- 2021**
- Precommissioning & Commissioning 20" Sales Gas Pipeline, 4" Condensate line, 10" Treated Bleed Water Line, LV MV Switchgear, AC/DC UPS, Storage System, Liquid Transfer Pump, Air Compressor of Jambaran Tiung Biru Gas Project.
- 2019**
- Turn Around Project BRAVO Flow station.
 - Progressive Pigging 12" Main oil line BL – BG platform.
- 2018**
- Gas Lift & Test Separator Replacement Project on BF platform.
 - Commissioning & Start up SPA new Gas source platform.
 - Start up BNA-12 crude oil well on BNA Platform .
- 2017**
- Tie in 10" New Pipeline from BG platform to BC platform.
 - Progressive Pigging 10" Main oil line BM – BL platform.
 - Installation Ejector to reduce gas trap in Main Oil Line on BZZA platform.
 - Flow line Acidizing BG-10, BG-8L/S, BK-6S, BF-4L/S, BL-9 & KA-2L/2S.
 - Tie in and Installation Process Wellhead Control Panel for BG platform.
- 2016**
- Gas Lift Separator Replacement Project at BG platform.
 - Gas Dryer Replacements project on BC, BF, BG & BK platforms.
 - Vessel Clean Out project on BNA and BL Production Separators.
 - Assembly and Installation Simplified Process and Wellhead Control Panel for BNA, BQA, BH, BE & BF Platforms.
 - Pumping solvent and acid by Boat for BQA & BK Platforms.
- 2015**
- YA Platform Reactivation project for Infill Gas Wells.
 - Assist Scada SMART valve installation for High producer Wells.
 - Assist RIG for infill BM-6 well completion.
 - Progressive Pigging on Stuck Pipeline at 8" Main oil line BNA – BL platforms.
- 2014**
- Upgrade Fire & Gas system.
 - PM 8000 hours B1 Compressor.
- 2013**
- B1C Retrofit Turbine Compressor.
- 2012**
- Turn Around Project BRAVO Flowstation.

WORK ACHIEVEMENT

- 2018**
- Gold Award Presentation in Continuous Improvement Program. PT. Pertamina Hulu Energy
- 2017**
- Certificate of ISRS 8 level 8 Bravo Flowstation.
 - 2.000.000 Hours without loss time incident BRAVO Flow station.
- 2016**
- Initiative for Wells reactivation of BK-1L/ BF-1L/ BA-2ST/ BE-4L/ BH-6ST/ BTSA-2ST. Total Gain 500 BOPD and 5 MMSCFD.
- 2014**
- OHSAS 18001: 2007 Certificate on BRAVO Flow station as Occupational Health and Safety Coordinator as well as Secretary on P2K3.
- 2013**
- Supervised and completed 39 items of BRAVO F/S SOP Manual Process.
 - 278 days without process unplanned shutdown in BRAVO Flow Station.
